EDUCATION

Premier University Jan 2019 – Jan 2026
BSc in Computer Science & Engineering (CGPA: 3.98/4.00) Chattogram, Bangladesh

TECHNICAL SKILLS

- **Languages:** JavaScript/TypeScript, Python, Swift, Go, C++, PHP, SQL.
- **Frameworks & Backend:** Next.js, React, Node.js, React Native, SwiftUI/UIKit, Laravel, RESTful APIs.
- **AI & Agentic:** Agentic AI Pipelines, LLM Integration, Parallel Processing, AI/ML Integration, OpenCV, CNN, DQN/DDQN.
- **Cloud & DevOps:** AWS, Azure, Docker, CI/CD (GitHub Actions), PostgreSQL, MySQL, Firebase, Linux.
- **Tools & Integrations:** Agora SDK, Stripe, SSLCommerz, RevenueCat, Realm, Git, Bitbucket, Postman, Figma, Xcode, VS Code, Cursor, Claude.

PROFESSIONAL EXPERIENCE

- Software Engineer** | *Pivotly, Minnesota, USA* - Remote Nov 2025 – Present
- Architect AI-powered backend solutions and automated business workflows for high-performance mobile apps.
 - Lead full-stack development using best coding practice.
- Software Engineer** | *Silicon Orchard Ltd, Dhaka, Bangladesh* Sep 2024 – Oct 2025
- Developed high-performance iOS (Swift) and cross-platform (React Native) applications with a focus on usability.
 - Integrated complex APIs and optimized UI/UX responsiveness for global client applications.
- Software Engineer (iOS)** | *Xotech, Chattogram, Bangladesh* Mar 2024 – Sep 2024
- Managed end-to-end iOS application lifecycles, from development to App Store submission.
 - Built scalable backend services using PHP (Laravel) to provide API support for mobile features.

PROJECTS

- Grade Now** | *Agentic AI, Node.js, Next.js, PostgreSQL, AWS* In Development
- Building an agentic AI pipeline that grades large volumes of student answer scripts against AI-generated question rubrics, using step-by-step guided stages with parallel processing.
 - Automates the end-to-end grading workflow to cut teacher evaluation time and improve consistency.
- IELTS Pro BD** | *Next.js, Node.js, PostgreSQL, SSLCommerz* [Live]
- Architected and shipped a full IELTS mock-test platform — student management, test delivery, and subscription billing.
 - Engineered a flexible test-engine editor for authoring mock tests in any IELTS question format.
- Connect My Advocate** | *Next.js, Node.js, PostgreSQL, Agora SDK, AWS* In Development
- Building a lawyer-client consultation platform with direct video calling, spanning admin, user, and mobile applications.
 - Sole engineer across the full stack — AWS infrastructure, PostgreSQL backend, Firebase, and CI/CD via GitHub Actions.
- CV-Forge** | *Python, LaTeX, Next.js* [Open Source]
- Building a guided web tool that collects a user's profile and generates a scholarship-tailored CV (Europass, academic, and more) from a single data source.
- AI Video Translator - DUB it!** | *Swift, UIKit, Realm, RevenueCat, AI Generation Services* [App Store]
- Shipped an AI dubbing app for lip-synced video translation with voice cloning and subscription monetization.
- VIDU — AI Video Maker** | *Swift, AVFoundation, Realm, RevenueCat, AI Generation Services* [App Store]
- Shipped an iOS app that generates video content from text and images using AI-based rendering.
- AI Art: AI Image Art Generator** | *Swift, UIKit, RevenueCat, AdMob, Lottie* [App Store]
- Shipped a generative-art app leveraging AI for digital artwork creation and enhancement.
- SmartWeight (IoT/CV)** | *Raspberry Pi, Python, OpenCV* [GitHub]
- Integrated object detection with weight sensors to automate digital billing and product identification.

PUBLICATIONS

- *PDAF: Performance-Driven Adaptive Forwarding in SDN-Assisted NDN-MANETs* - IEEE Transactions of Mobile Computing. (under review)
- *Empowering Bengali Language in Drone Control with Artificial Neural Networks*. 11th International Conference on Informatics, Electronics & Vision (ICIEV) & 6th IVPR.

RESEARCH INTERESTS

Agentic AI, Reinforcement Learning (DQN/DDQN), Named Data Networking (NDN), Knowledge Graphs, AI/ML, Blockchain, XR/AR/VR, and Quantum Computing.

COMPETITIVE PROGRAMMING

- **Codeforces:** Specialist (Max Rating: 1417) | 1000+ problems solved. [Handle: SajjadHuseyn]
- **CodeChef:** 3-Star (Max Rating: 1721). [Handle: sajjadhuseyn-t]
- **Others:** Active on LeetCode, LightOJ, and TOPH.

ACHIEVEMENTS

- **ICPC Asia West Championship 2022:** Finalist [Team - PUC Eternals].
- **ICPC Dhaka Regional (Main Round):** 52nd/162 (2022), 78th/224 (2023), 93rd/165 (2021).
- **ICPC Dhaka Regional (Preliminary):** 76th/2481 (2023), 84th/1648 (2022).
- **Others:** Participated in numerous IUPCs including BUET and CUET events; Merit-Based Scholar.

ORGANIZATIONS

- | | |
|---|---------------------|
| • PUC CSE Club CP Trainer and Manager | Jan 2021 – Dec 2023 |
| • PUC Robotics Club Program Secretary | Jan 2022 – Dec 2022 |
| • IEEE Member | Jan 2023 – Dec 2023 |
| • Rotaract Club of Chattogram Commercial City Member | Jan 2020 – Dec 2022 |
