PROFILE

Full-stack software engineer who designs, builds, and deploys cloud-native backends, AI/LLM-driven automation, and cross-platform applications end to end. ICPC Asia-West finalist and published SDN/NDN networking researcher, pairing elite algorithmic problem-solving with production engineering.

EDUCATION

Jan 2019 – Mar 2024

Bachelor of Science in Computer Science & Engineering

Premier University, Chittagong, Bangladesh

CGPA: 3.98 / 4.00 (1st rank in batch)

Thesis: Performance-Driven Adaptive Forwarding in SDN-Assisted NDN-MANETs

PUBLICATIONS

Empowering Bengali Language in Drone Control with Artificial Neural Networks
ICIEV & IVPR, Accepted

PDAF: Performance-Driven Adaptive Forwarding in SDN-Assisted NDN-MANETs
IEEE Transactions on Mobile Computing, Submitted January 2026, Under Review

WORK EXPERIENCE

Nov 2025 – Present

Software Engineer

Pivotly, Minnesota, USA (Remote)

- Built AI-powered backend services and agentic LLM workflows that automate complex, high-volume business processes.
- Develop the accompanying web and mobile frontends and integrate them with the backend over REST APIs.
- Deploy and operate services on cloud infrastructure to production standards, with automated testing and debugging.

Sep 2024 – Oct 2025

Software Engineer

Silicon Orchard Ltd., Dhaka, Bangladesh

- Built and maintained cross-platform (React Native) and native iOS (Swift) applications.
- Integrated backend APIs and optimized performance for reliability on unstable networks.
- Worked across product, backend, and design teams to deliver and deploy features.

Mar 2024 – Sep 2024

Software Engineer (iOS)

Xotech, Chittagong, Bangladesh

- Developed AI-based iOS applications with Swift and UIKit.
- Built backend services and REST APIs with PHP (Laravel).
- Managed the full app lifecycle through to App Store release, with performance testing and debugging.

PROJECTS

Grade Now — AI Grading Platform for Students (Agentic AI, LLM, Node.js, Next.js, PostgreSQL, AWS)

- Solely built and deployed an AI-based platform that grades student answer scripts against AI-generated rubrics through a parallel, multi-stage agentic pipeline.
- Automates end-to-end evaluation to cut grading time and improve consistency across institutions.

Connect My Advocate — Legal Aid Platform (Next.js, Node.js, PostgreSQL, Agora SDK, AWS)

- Sole engineer behind the complete system — client web, mobile, and admin apps — for a legal-aid platform with real-time video consultation.
- Built and own the AWS infrastructure, PostgreSQL backend, Firebase, and CI/CD via GitHub Actions end to end.

CD IELTS — Mock IELTS Test Platform (Next.js, Node.js, PostgreSQL, SSLCommerz)

- Single-handedly architected, shipped, and maintain a live computer-delivered mock-IELTS platform with student management, a flexible test-engine editor, and subscription billing.

CV-Forge — Open-Source CV Builder (Python, LaTeX, Next.js)

- Solely built a guided open-source tool that generates scholarship-tailored CVs (Europass, academic, and more) from a single structured data source.

AI Video Translator — DUB it! (Swift, UIKit, AI Services, RevenueCat)

- Shipped an AI dubbing iOS app for lip-synced video translation with voice cloning — one of several apps released on the App Store.

SmartWeight — Edge Vision Weighing System (Raspberry Pi, Python, OpenCV)

- Integrated real-time OpenCV object detection with weight sensors on Raspberry Pi to automate billing and product identification, fully on-device.

AWARDS & ACHIEVEMENTS

Competitive Programming — ICPC	ICPC Asia West Championship Finalist, 2022 (Team PUC Eternals) ICPC Dhaka Regional Main Round — 52nd (2022), 78th (2023), 93rd (2021) ICPC Dhaka Regional Online Preliminary — 76th of 2481 (2023), 84th of 1648 (2022)
Competitive Programming — Ratings	Codeforces: Specialist (max rating 1417), 1000+ problems solved CodeChef: 3-star (max rating 1721)
Scholarships	Merit-Based Scholarship, Premier University

SKILLS

Languages	JavaScript/TypeScript, Python, Swift, Go, C++, PHP, SQL
Cloud & DevOps	AWS, Azure, Docker, CI/CD (GitHub Actions), PostgreSQL, MySQL, Firebase, Linux
Frameworks & Backend	Next.js, React, Node.js, React Native, SwiftUI/UIKit, Laravel, RESTful APIs
AI & Systems	Agentic AI & LLM Integration, AI/ML, OpenCV (Computer Vision), Reinforcement Learning (DQN/DDQN), SDN/NDN Networking

ACTIVITIES & LEADERSHIP

Jan 2021 – Dec 2023	Manager and Trainer PUC CSE Club Conducted data-structures and algorithms bootcamps for competitive-programming teams.
Jan 2022 – Dec 2022	Program Secretary PUC Robotics Club

LANGUAGES

Bengali	Native
English	C1 (Fluent)

DECLARATION

I hereby declare that the information provided in this CV is accurate and complete to the best of my knowledge.
